Forged flanges

SS weld neck flange

Weld neck flanges in stainless steel 304 and 316L for high-pressure and corrosive service, with full material traceability.

Product code	KF-FL-WN
Material / grade	ASTM A182 F304 / F316L
Sizes	½″ to 24″, Class 150 to 1500
Minimum order	100 pcs
Lead time	15 to 20 days
Packing	Each flange capped and boxed

Specifications

Standard	ASME B16.5 / B16.47
Pressure class	150 to 1500 lb
Bore	Matched to pipe schedule
Facing	RF, FF or RTJ
Testing	PMI, dimensional, visual; UT on request

Standards and certificates

ISO 9001:2015, ASME B16.5, NACE MR0175 on request

Typical applications

Oil and gas lines, Chemical process plants, High-pressure water
